Quality Handmade Pottery

Corina and I would like to thank all of our loyal customers who have supported us since 1981. We are proud to continue bringing you quality handmade stoneware that is oven, microwave and dishwasher safe. When we started our business 30 years ago, we would have never imagined it to become as successful as it is today and it's because of you, our past and future customers.

My interest in pottery began in high school when my instructor introduced me to throwing and my interest grew from there. After graduation, I did pottery in my spare time in an effort to perfect my pottery skills. Corina's interest in pottery also began in high school. We were married in 1981, the same year our studio was established. We are a great team as I do the throwing and firing, while Corina works on the glazing and decorating.

We are a family owned and operated business located in Milton-Freewater, Oregon. We are very excited that two of our sons, Derek and Jeff are working with us and learning how to be potters. We look forward to continuing our tradition of making quality handmade stoneware for generations to come. We strive to produce great pieces and provide exceptional customer service.

Jeff Derek Corina Bob
